

Which questions show an AirOps ad in an AI chat?

Prism Publication sample match report. Tested October 6, 2026. By Daniel Rosenthal.

1 of 10 visitor questions cleared the 0.65 match floor and showed the AirOps ad as an Affiliate ad card. The rest might not surface a card. These are Prism's own scores and say nothing about any other platform.

#	Visitor question	Shown	Score	Floor
1	How do I get my content cited by ChatGPT?	Yes	0.737	0.65
2	Why does AI search never cite my blog posts?	No	0.089	0.65
3	How can I track whether AI engines mention my brand?	No	0.288	0.65
4	What makes content more likely to be cited in AI answers?	No	0.433	0.65
5	Is there a tool to help my articles get cited by Perplexity?	No	0.384	0.65
6	How do I write content that AI search engines will quote?	No	0.356	0.65
7	What is generative engine optimization?	No	0.136	0.65
8	Can I measure my AI search visibility?	No	0.136	0.65
9	What is a good subject line for a newsletter?	No	0.000	0.65
10	How much protein should I eat after a workout?	No	0.044	0.65

The ad tested (as stored in Prism's library, not rewritten by Prism)

Label: Affiliate ad

Headline: Stop guessing. Start getting cited.

Description: AirOps tracks your brand across AI engines and helps your content get cited.

Button: See AirOps

Keywords: how do I get my content cited by chatgpt, get cited by ai search engines, ai content visibility tracking, why is my content not cited by ai

The topic label is not part of the score. In the live chat, an approved paid ad that clears the floor is shown ahead of any affiliate ad. Some links are affiliate links; Prism Publication may earn a commission at no extra cost to you. Full page: <https://prismpublication.com/reports/aiops/>
